### **About SPOCE**

SPOCE Project Management was formed in 1994. Since then SPOCE has developed a reputation for the quality of its products, flexible approach and excellent customer service. SPOCE's experience in its field gives us the ability to understand our clients' requirements and together with our wealth of project management knowledge and PRINCE2 and Programme Management (MSP) training expertise, we come highly recommended in this field.

SPOCE has been accredited by the APM Group and have the distinction of holding UKAS/APMG Certificate 001. SPOCE were also the first company to become formally registered by the OGC/APMG which reflected our commitment to becoming the first company to deliver an accredited PRINCE2 course with examinations in January 1997.

SPOCE has access to a pool of in excess of 25 accredited trainers delivering PRINCE2, MSP and M-o-R open events and providing tailored solutions for specific clients.

SPOCE considers itself a market leader in the provision of instructor-led and distance learning PRINCE2 training solutions.

### **Training Events and Services**

Weekly PRINCE2 Foundation and Practitioner events are offered in Bournemouth, London or Kenilworth.

Our PRINCE2 events are geared to ensuring that participants learn and understand the Method, by following the approved syllabus in an enthusiastic environment, to a point where all will pass the Foundation Exam. Those who progress to Practitioner level are given every chance of success by the provision of intensive coaching by approved trainers. Our pass rates reflect the effectiveness of our training solutions.

To ensure that those attending PRINCE2 events have every chance of success SPOCE have developed a unique package of pre-course study materials consisting of a study guide, a copy of the OGC's "Managing Successful Projects with PRINCE2", an event preparation CD and various recognised publications authored by our founder Ken Bradley.

To assist those customers who elect to take the distance learning approach we also offer 2-day Examination Preparation events.

SPOCE also provide a ranged of associated, but non-examined, training events and consultancy services that will assist organisations in the implementation of PRINCE2 and other OGC sponsored methodologies.
